

Speed Bumps

Lockinex[®]
great service, great quality

INTRODUCTION

Lockinex Traffic Calming products are suitable for private sites & car parks.

Two heights are available, 50mm (10mph) & 70mm. The 70mm is more suitable to slower speeds of 5mph or less.

APPLICATION

In areas where speed needs to be reduced, Lockinex Traffic calming Speed Humps and cushions can be fixed to the driving surface.

Once installed, the products will provide years of service.

DESIGN

There are a number of styles available:

50mm High Bumps (Suitable for max 10 mph)

70mm High Bumps (Suitable for 5mph or less)

65mm High cushion (Suitable for 5mph or less)

COMPOSITION, MANUFACTURE.

Manufactured from recycled rubber.

Fully recyclable.
